they liked me. The other fellows were

more popular, I know.
"As a matter of fact, when I first started in and licked Sharkey, Corbett and Fitz, the gang said it was a fluke—that I wasn't the best man—and I had

to do it all over again."

There was a fincture of self-gratification in the chuckle that accompanied the last utterance. The man would not have been human if there had not been. It provoked this question:

Wanted to Hurt Munroe. "Did you ever feel any animosity in your fights-any desire to hurt the oth-

"Yes, I believe I did—once. It was in the fight with Jack Munroe. He had said so many dirty things about me that I wanted to punish him. That was the first time my old mother ever butted in. The day of the fight she telegraphed was to bear him in two Just

butted in. The day of the fight she tel-egraphed me to break him in two. Just think of it! She's 70 years old, and she never said a word about my business till that time."

Jeffries reveled in the reminiscence. He spoke of his mother "butting in" with the delight of a boy receiving a compliment. This great human batter-ing ram, breaker of noses and pounder of flesh, drawer of blood and scientist of flesh, drawer of blood and scientist in the disfigurement of faces, fairly beamed at the recollection.

"Have you ever felt, when first fac-ing a man in the ring, that you might be beaten?"

"I never went in," Jeffries answered, in his same innocent way, "that I didn't feel as if I had the fight in my hand I didn't think much about it, anyway. I wouldn't let myself bother about it. I just knew that the other

about it. I just knew that the other fellow would have his hands full."
"Do you like the business?"
"I like hunting and fishing better. I don't dislike it—really, I don't trouble myself about it one way or the other. The only thing I don't like is the training, that's hard work. I'd as lief go into a fight as eat, but I hate the work of getting into condition."

Abhors the Stage.

"Did you like the stage any better than the ring?"
"Shucks!" I'm no actor. The stage wouldn't have any charm for me if I was a good actor." "You don't pine for the center of the

"You don't pine for the center of the stage and the limelight, then?"
"No: I've no hankering for any of it. And I don't want a saloon, either. I'm going out to the coast and hunt and fish in the woods."
Concerning his accumulation of money from his fights, Jeffries said:
"I reckon I could shake out about \$70,000. I'm interested in an \$000-acre ranch in California, and my brother and I own a piece of a paying gold mine. I'm fixed all right, and if I have to give up the fighting business. I'm in to give up the fighting business, I'm in shape to tell 'em to go to the devil."

BECKLEY ALL-ROUND SPORT.

Veteran First Sacker Butts Into the Racing Game.

It should tickle the friends of Mr. Beckley, the versatile St. Louis firstbaser, to learn that Jake is an allround sport, addicted to many acute and surprising angles. So far this season he has batted 340, which is immense. Last winter Jake maintained an average of 1.000 hitting cayuses on the heels at the Los Angeles track. Jake was the man behind the barrier, his official title being that of assistant starter. He is the only left-handed starter in the busi-

Armed with a mule whip that carried a lash twelve feet long and six pounds of lead in the butt. Mr. Beckley always saw to it that the horse bearing his money got a quick start. People in the stand, half a mile away, could pick Jake's fancy by the way he raised welts on the hams of the unhappy steed Be-lng next to all good things, the assistant starter usually won \$1, and sometimes \$2. In the course of a single day. One fatal afternoon Jake plunged. He

had \$3 on the favorite in the last race, the only item on the whole card that looked right to him. Mr. Beckley passed toked right to him. Air. Beckley passed the word along and many others, in-cluding Mr. D. Shay, took a filer. When the field assembled at the barrier, the faithful Jake was there to keep the favorite from going to sleep or even dozing. As the tape flew up, Jake aimed a fearful wallop at his choice and then yelled: "Git-ap!"

The whip was a right-handed one, and the left-handed cut Mr. Beckley made with the long lash put a weird kink in the cracker end. It fouled the tall of the favorite, and he jumped forward, jerking the whip from Jake's hand. Away went the horse for a mile sprint through the mud, carrying the starter's money and towing his whip with six pounds of lead in the butt. The added impost was too much. At the finish the favorite was breathing like a tugboat, and he lost by two furlongs. Mr. Beck-

ley never saw his \$3 any more. It was this mishap, more than anything else, that induced Mr. Beckley to forsake the ponies and go back to the Cardinals. The erratic conduct of the six-pound whip brought vividly to Jake's mind the uncertainties of the racing game, which is not always a cinch, even to those in the know. The many a slip 'twixt the tape and so the retired plunger asserts. now in a tranquil mood, resigned to his loss, and the only athlete in the bunch hitting 300 or better. May he never hit

STUDENTS AT LAGOON.

One Thousand L. D. S. U. Pupils Have a Good Time.

One thousand L. D. S. U. students went to Lingoon yesterday and held their annual field day. The feature of the day was the baseball game between the Saints and All Hallows College, which resulted in a victory for the former by a score of 15 to 6. The field was in very poor condition, and consequently many errors resulted. The Saints had on their batting clothes and from the very beginning began to pile up runs. Joe Smith, Lund and Sheets were the stars for the Saints, while Stewart Quinn and Haya did good work for

New Amateur Golf Champion.

New Amateur Golf Champion.

STAPLETON, S. I., May 37.—Charles H. Seeley of the Weeburn Golf club, Stamford, Coon, won the title of aquateur champion of the Metropolitan Golf association by deteating Archie Graham of Paterson, N. J., today by one up on the links of the Feskillis Golf club. The final was at 38 holes match play, and during the morning and afternoon rounds the men played so closely that at no time was there more than one hole advantage on either eide. The morning context ended with the score all even, and the only time that Graham took the lead was on the oighth green in the afternoon, when he won the hole in 3 to 5. Hearried this advantage to the eleventh, which Seeley won in 5 to 6. The last five holes of the match were halved in fours, and Seeley, having won the thirteenth in 5 to 6, was the winner of the title.

NATIONAL LEAGUE.

Pittsburg 8, Cincinnati 3. PITTSBURG. May 27.—By working the hit and run game Pittsburg@took the lead in the first inning and could not be stopped. Errors were responsible for two of Cincinnati's runs. Attendance 1000. Score: R. H. E. Rutteries Flaherty and Peitz Harper, Hahn and Pheips. Earned runs, Plitsburg 4, Cincinnati 1. Two-base hits, Corcoran, Sebring, Barry, Pheips. Three-base hifs, Wagner, Keilly, Buses on balls, off Flaherty 2; off Harper 1; off Hahn 2. Struck out, by Harper 2. Umpire, Emalle.

WESTERN LEAGUE.

PELVIC DISEASES OF

Pelvic Diseases of Men are CURED BY DR. COOK after complete failures are made by other specialists.

The success of Dr. Cook in curing all forms of Blood Poison, Skin Diseases, Stricture, Varicocele, Hydrocele, Piles, Fistula, Rupture, Nervous and Sexual Decline, Los: Manhood and Diseases of the Kidneys, Bladder and Prostate, has ranked his name as the Greatest Specialist on the American Continent.

My Scientific Pelvic Methods do not fail to Cure

Blood Poison. Stricture. Varicocele.

Also Piles, Fistula, Rupture, Hydrocele, Nervous and Sexual Decline, Lost Manhood, and Diseases of the Skin, Kidneys, Bladder and Prostate.

SPECIAL NOTICE—When I say that I am the only physician in the city, or even in the West, who employs pelvic methods for the cure of the diseases I make a specialty, and that other systems of treatment are inferior and unreliable I make a statement subject to investigation by any council of physicians, and will agree to forfeit \$500.00 to a charitable institution if I fall to give sufficient evidence to substantiate the claim.

IMPORTANT—I will cure you for less money than you can be treated by any other specialist in the West. You will have to come to me sooner or later in order to be properly cured, why not before you have lost your money in doctoring with cheap or dishonest, unskilled specialists?

CURE OR NO CHARGE—ARSOLUTELY NO CHARGE UNLESS SATISFACTION IS GIVEN. My patients receive a written guarantee to refund every dollar for service if they do not receive a complete, life-long cure and entire satisfaction, and I have made a deposit of \$50.00 in the bank, to secure any contract that I do not fulfill.

How I Cure the Diseases Included In My Specialty After So-Called Specialists Experiment and Fail; My Prices For Treating, Which Are the Lowest of Any Reliable Specialist In the United States.

POISONED BLOOD

Primary, Secondary, Tertiary, Hereditary.

ITS PURIFICATION BY REORGANIZATION WITH DR. COOK'S METHOD-SPECIFIC SERUM-THE ONLY KNOWN CURE FOR ALL FORMS OF BLOOD POISON.

I WILL DEPOSIT IN ANY BANK \$10,000 TO BE FORFEITED IN CASE OF FAILURE TO CURE THE WORST CASE OF BLOOD POISON SO THAT NOT A SIGN WILL EVER RE-APPEAR -DR. COOK.

How many poor humans there are who are downcast, with no hopes of living but a short, miserable life on account of the Blood being contaminated with Poison, which has been handed down from their parents or acquired? How many are fast decaying and are gradually being lowered into their graves, evinced by such symptoms of destruction as, first, a characteristic sore, then pimples and sores over the body, skin eruptions, falling hair, pleers in mouth and throat, discolored spots on skin, bone aches and many other typical indications.

Do not take mercury, potash or vegetable compounds, for they only assist the disease in torturing you more and bring about the end much earlier and it is so unfortunate for humanity that physicians, almost without exception, are still giving people this kind of treatment when they know it is harmful. I invite every one taking treatment for Blood Poison to send me a sample of the medicines, which I will have analyzed and reported to them, free of charge.

My treatment for Poisoned Blood is based on the principle of reorganization of the corpuscles by Specific Serum, introduced by subcutaneous injection and combined with an internal specific, which disorganizes, neutralizes and expels the poison from the system through the same ducts that carry off all the effect matter. In a few weeks after beginning the treatment the poison is cast out, the corpuscles are renewed with fresh, pure blood, which abundantly supplies the tissues that rebuild the flesh and bones, so that the patient becomes strong, fleshy, red-faced and enjoys the pride of health The treatment is introduced both subcutaneously and internally, and removes all manifestations of the disease soon after beginning.

STRICTURE

And Its Scientific, Certain, Safe Cure

BY DR. COOK'S METHOD OF IRRIGATION AND DIGESTION, WHICH IN-SURES EVERY ONE A SAFE, PAINLESS AND PERMANENT CURE.

Stricture is the most frequent and dreadful disease of the Pelvic system, and is not only important because of its pain ful and harmful effects upon the canal, but is grave by reason of its intimate relation through the sympathetic nervous system with the kidneys, bladder and prostate. Every man affected with stricture for any length of time is bordering on dangerous compileations with the kidneys and bladder, and when these vital organs are encroached upon by disease the results are so serious as to forebode more danger than consumption.

The reason why there are so many failures made in treating stricture is because 30 per cent of the physicians who claim to cure the disease employ some method of treating organic stricture when some other condition exists. No doctor can justly claim the ability to cure stricture unless he has devoted years of study and practice to the disease, neither can any one expect to be cured by cutting, dilating, syringing, or the use of soluble bougies, which give only temporary relief and aggravate the disease.

My treatment for stricture is by irrigation, which digests the formation in fibrous particles, after reducing all inflammation so that the passage of water is without pain or difficulty. Immediate relief is received from the course of treatment I administer, and I cure the most severe cases. When I have dismissed a case the canal is sound, healthy and perfectly natural. I will give \$1000 for a

Sexual Power Restored.

THERE IS NOT A MAN IN EXISTENCE WHO IS SUFFERING FROM SEXUAL WEAKNESS OR "LOST MANHOOD," IF DECLINE IS FROM UN-NATURAL CAUSE, THAT I CANNOT REBUILD AND STRENGTHEN, AND AFTER I HAVE CURED A CASE OF THIS KIND THERE WILL NEVER AGAIN BE A SIGN OF WEAKNESS, EXCEPT BROUGHT ON BY IMPRU-

About three-fourths of the male population from 20 to 60 years of age are troubled with an abnormally weak condition of the organs of procreation, invariably brought on by the youth in his teens or the many excesses to which man is apt to be addicted. Varicocele, involuntary emissions, drains, premature discharge, small organs, weak back are all symptoms of rapid decline.

charge, small organs, weak back are all symptoms of rapid decline.

MY CURE is a thorough and scientific course of treatment which acts at once upon the nerve forces, stopping the drain and replacing the worn-out and run-down tissues. It increases the weight in sound, healthy flesh and muscles that give strength and fills the brain and nerves with fresh vitality, building up the entire system and transforming the sufferer into a type of complete manhood.

BLADDER TROUBLE

The neck of the bladder is oftener affected and becomes catarrhal, discharging mucus, blood, and weakened by inflammation, the flow of urine is either out off or dnlimited, allowing dribbling, as well as painful symptoms.

By the modern method of fliuminating the bladder I have

no trouble in discovering the nature of the disease, and by directly and scientifically medicating the affected regions, I accompilsh remarkably quick and permanent cures.

ENLARGED PROSTATE results from inflammation ing the urinary canal and rectal passage, producing painful urination and chroni constipation, reduces the enlargement, a normal condition is resumed, and 90 per cent of the cases i treat are permanently cured.

VARICOCELE

Is a pelvic disease, and is simply veins filled with curdled or stagnant blood similar to varicose veins occurring in any other part of the body. This overflow and clotted accumulation are caused by undue excitement or weakness of the sympathetic or ganglionic nerves that regulate the supply of blood in any organism.

Every man afflicted with varicocele of long standing knows that it has blighted his life and that he has made a great mistake in not having himself cured. The disease not only endangers by complication every organ in the same region, but by sympathetic irritation, destroys the nervous system and renders a man a complete wreck physically, mentally and sexually.

the nervous system and renders a man a complete wreck physically, mentally and sexually.

My treatment is the result of years of experimentation. There is no operation about my radical cure for varicocele, neither any pain nor detention from business. My procedure consists of absorption, by which means the stagnant blood is transuded into the cellular tissues and finally ejected in the same manner as all other waste matter is thrown off. The ganglionic nerves, the weakness of which causes varicocele, are restored by the administration of a tonic, and a complete cure is possible in every case.

HYDROCELE Is one of the frequent chronic diseases. It consists of an accumulation of serous fluid and always involves the entire pelvic system depriving the organs and the pelvic system of all vitality. Hydrocele is commonly caused by injury to the scrotum, or may result from continued inflammation produced by stricture, piles and any chronic trouble in the pelvic system. No one but a physician who has devoted his attention to this class of diseases is able to distinguish a case of hydrocele from either rupture or varicocele.

The remedy I use to cure hydrocele completely obliterates the tumor at once, and by the use of a preparation for a few days no sign of the disease eyer re-

and by the use of a preparation for s few days no sign of the disease ever re-

and by the use of a preparation for a few days no sign of the disease ever reappears.

PILES

Or hemorrhoids are small vascular tumors situated at the lower opening of the bowel, or rectum. Among the chief causes may be mentioned constipation, sedentary habits, indigestion and, in fact, any condition that interferes with the process of digestion.

They have a most degrading influence on the general health. In fact, many patients come to me suffering with constitutional disturbances of various kinds which are reflex conditions produced by Pile Tumors, and after their piles are cured, the other troubles disappear immediately. The rectum is the only organ of the alimentary canal which receives its nerve support directly from the spinsic cord, therefore, when the rectum is deseased, there is a direct irritation on the nerve supplying it, which in turn irritates the spinal cord, from which the different organs of the body get their nerve supply. In this way irritation of the rectum is transmitted to the various organs of the body through the nervous system.

My treatment and success are the result of years of experience, and my method is distinctly my own. I cure without cutting, nor do I use ligature or any carbolic acid injections, which treatment has ruined many a man. There is absolutely no pain or detention, and when you leave my care you are cured for life.

RIPPIERE

for life.

RUPIURE

Properly termed

Hernia, is an infection in the region of the pelvic system,
and is an escape or protrusion of the
bowels from the lower part of the abdominal cavity. The tendency of Rupture is always progressive, and the
symptoms are usually so elight as not to
warn the afflicted, even though he be in
immediate danger. Rupture frequently
results in strangulation and death. eaults in strangulation and death. Tusses should not be continuously forn, as they only aggravate the trou-

ble.

I have a sure, safe method for curing Rupture. Besides being absolutely reliable it is painless and harmless. It makes no difference how many times you have been treated, I can cure you, and will guarantee entire satisfaction.

KIDNEY COMPLAINIS

Kidney diseases affect a large number, although many are in ignorance of their trouble and attribute their unwell condition to some other cause. Male excesses, alcoholic liquors, severe sickness, which werkens the kidneys, often produce kidney diseases, and the usual symptoms are highly colored urine, with strong odor, sediment in urine, frequent urination, or irregular, chility and reversish spells, wormout feding, puffiness under the eyes or swellings.

My long study and extensive practice in the treatment of all forms of Kidney Diseases have familiarized me to the extent that I have attained a skill which insures successful treatment in all cases that are not incurable. I determine the condition of the kidneys by a scientific analysis of urine, and many severe kidney troubles I have cured by my systematic course of treatment, after being given up as incurable by other physicians gives me such confidence in my method as to assure every case I accept a permanent cure.

CONSULTATION FREE, CONFIDENTIAL AND INVITED-A personal, thorough and searching examination is desired, though if inconvenient to call, write me a full description of your trouble. Office hours: 9 a. m. to 8 p. m., excepting Sundays, from 10 to 12:30 p. m. Address or call
